

HAUL MONITOR[®]

HAUL MONITOR[®] is an automated system for validating the status of a travel permit.

Enforcement officers or commercial vehicle operators simply call or text the HAUL MONITOR[®] phone number and enter the permit number.

HAUL MONITOR[®] will respond back with the status of the permit and key details, including dates of authorized travel, approved route, weight, height, and axles. The information provided is customized based on available data from the transportation agency.

Verify permits as legitimate, accurate, and paid at any day or time, to prevent unsafe travel conditions.

Text or call the voice assistant to obtain accurate, official permit information directly from your agency. Avoids errors or fraud that is possible using carried permits.

Commercial vehicle operators can verify that their permits are valid, especially during times of ad-hoc restrictions.
